DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a polypeptide involved in intraplastid-targeting, or wherein said polypeptide fused with a heterologous protein is used in a method to target said heterologous protein into chloroplast.

Group II, claim(s) 9-12, drawn to a polynucleotide encoding a chloroplast targeting polypeptide.

The inventions listed as Group I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The special technical feature of Group I is a chloroplast targeting polypeptide as defined in SEQ ID NOs: 4 or 5 and SEQ ID NOs: 1 or 3

The special technical feature of Group II is a polynucleotide encoding a chloroplast targeting polypeptide.

Applicants are reminded that different nucleotide sequences and amino acid sequences are structurally distinct chemical compounds and are unrelated to one another. These sequences are thus deemed to normally constitute different inventive concepts.

For these reasons, **Applicants are required to elect** one nucleic acid sequence and one encoded amino acid sequence to be examined in conjunction with the elected Group of claims. In the instant case, for Group I or Group II, one of SEQ ID NOs. 4 or 5 with one of SEQ ID NOs. 1 or 3 (amino acid positions 49-59), or one of SEQ ID NOs. 4 or 5 with one of SEQ ID NOs. 1 or 3 (amino acid positions 101-111).

Accordingly, Groups I-II are not so linked by the same or a corresponding special technical feature as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
